

EU 0.1ml Optical 4-tube-strip

Single attached cap, fits Qiagen® (Corbett) Rotor-Gene® system
Natural, Bag of 250 strips (1000 tubes)
Catalog number B84001

Fits Qiagen® Rotor-Gene® system "72-Rotor

- ❖ Extremely transparent
- ❖ Specially treated to reduce the binding of protein
- ❖ Loss of volume less than 3%.
- ❖ It's possible to PCR in as less as 5 µl
- ❖ qPCR Grade 1, has enhanced single-to-noise ratio if frosted
- ❖ Free of detectable DNA, DNase, RNase, Metals, Pyrogens

Unique advantages

▶ Tight close do not loose liquids during run
(evaporation changes the concentrations and effect the results)

Picture taken with competitor tubes after run

▶ Do not have plastic residues at the bottom,
The cycler read is done from the bottom
and residues effects the results

Free stand with first order
