for Your Safety

# VACUETTE® PREMIUM Tube

## PREMIUM Safety and PREMIUM Comfort

### The PREMIUM Tube

Since blood is potentially infectious sample material, our aim at Greiner Bio-One is to make daily routine procedures as simple and safe as possible for medical staff.

This was the stimulus for our product experts to develop the new, innovative **VACUETTE® PREMIUM** Tube with Safety Twist Cap. This may sound simple, but from the production technology point of view, this is a significant advance for user safety, requiring a high level of innovative strength and competence.

Leading the market with technology is the prerequisite for developing and manufacturing these outstanding products. Greiner Bio-One is the only manufacturer in the world to offer an evacuated blood collection tube with Safety Twist Cap. This is once again the proof that Greiner Bio-One is Trendsetter for safety solutions in the field of blood collection.

With this innovation, handling comfort and safety are united in one product. It is the next logical step for even more safety when processing blood samples for analysis.

The **VACUETTE®** blood collection tube is already available in the PREMIUM version for most areas of application. For more detailed information, please refer to the **VACUETTE®** Product Catalogue.

Maximum Handling Comfort		Maximum Safety	
<b>Easy manual opening</b>	The unique screw thread ensures effortless opening of the tube.	<b>No danger of blood splashes</b>	The gentle, controlled opening movement reduces the danger of blood splashes.
<b>Easy automatic opening</b>	The new twist cap is perfect for automated tube decapping.	<b>Transport safety</b>	The Safety Twist Cap ensures safe transport, as the cap will not become loose, whatever the circumstances.
<b>Better optical control of the blood sample</b>	The transparent plastic label allows better visual control of the sample at first glance.*	<b>Minimises aerosol effect</b>	No aerosol when opening due to the controlled, consistent opening movement.
<b>One-handed opening</b>	If necessary, the tube can be easily opened with one hand.		

\* Optional: the **VACUETTE®** PREMIUM tube is available in a choice of plastic label or standard paper label with writing space
