Absorbent paper with polyethylene

The absorbent paper with polyethylene FILTER-LAB ® has been created to achieve full protection in trays, lab benches, animal cages and generally in any area where you need a complete seal.

It consists of two panels. One side of blotting paper, which allows excellent fluid absorption and a side consisting of polyethylene film which guarantees absolute waterproofing.

Can be used on both sides. When using face with polyethylene, allows recovery of valuable materials or dangerous products.

Ref. 1505; Weight in grams 125 g/m² Absorption in area 240 g/m²

Ref. 1508; Weight in grams 210g/m², Absorption in area 400 g/m²
