

### CELL CULTURE/MEDIA Erlenmeyer Flask with GL 45 Screw Thread

Kimble Chase® offers both plastic safety-coated and uncoated versions of the Erlenmeyer flasks with a 30 mm wide opening and GL 45 finish. They are ideal for preparing and storing media, and for use as shaker flasks. The flasks are made from 33 expansion borosilicate glass and the linerless blue caps and clear pour rings are made from polypropylene. Both coated and uncoated styles are extremely durable and compatible with steam autoclaving at 121 °C.

KIMBLE CHASE Cat. No.	Capacity (mL)	Height (mm)	Widest OD (mm)	GPI Finish	Case Qty
26720-250	250	125	81	GL 45	6
